

Camera Tool

Go to Tools...Camera

The camera tool offers 5 different ways of taking a picture

Area- A highlighted box appears. The box can be moved to any part of your screen and can be sized by dragging the corner handles. The area choice is good for taking a square/rectangular picture.

Point to point- Click and drag the line to make a box. This choice is good for irregular shaped objects.

Freehand- Trace the image you want to take a picture of.

Full screen- Takes a picture of the screen.

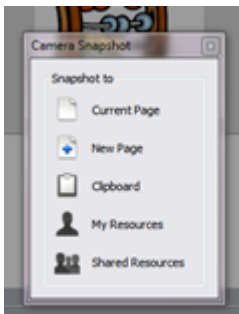

SAVING CHOICES:

Current page- The picture will be pasted on the current Flipchart.

New Page- The picture will be pasted on a new page at the end of the Flipchart.

Clipboard- When making the clipboard choice, you can paste the image on any document- Flipchart, Excel, Word, or PowerPoint.

My Resources and Shared Resources- the image will be saved in the Page Browser.

When you click the saving choice, you take the picture.
